

# Directory of DoD Program Executive Officers PEOs

*The Program Executive Officer (PEO) is the individual responsible for all aspects of a specific program, or a portfolio of similar acquisition programs in the Department of Defense. They (and their Contracting Officers) buy things. Program Managers (PMs) work with the PEO and manage subsets of the larger program.*

## Who Is the Document For?

Think of this document as a “Who buys in the government?” phone book.

The DoD buys hundreds of billions of dollars of products and services per year, and nearly all of these purchases are managed by Program Executive Offices. A Program Executive Office may be responsible for a specific program (e.g., the Joint Strike Fighter) or for an entire portfolio of similar programs (e.g., the Navy Program Executive Office for Digital and Enterprise Services). PEOs define requirements and their Contracting Officers buy things (handling the formal purchasing, issuing requests for proposals (RFPs), and signing contracts with vendors.) Program Managers (PMs) work with the PEO and manage subsets of the larger program.

This first version of the directory lists 75 Program Executive Offices and their Program Executive Officers and Program/Project Managers.

Each Program Executive *Office* is headed by a Program Executive *Officer* who is a high ranking official – either a member of the military or a high ranking civilian - responsible for the cost, schedule, and performance of a major system, or portfolio of systems, some worth billions of dollars.

### Warning

Do not depend on this document for accuracy or completeness.

Military officers typically change jobs every few years.  
Program Offices get closed and new ones opened as needed.

This means this document was out of date the day it was written.

# How To Use This Document

While it's helpful to know what Program Executive Offices exist and who staffs them, it's even better to know where the money is, what it's being spent on, and whether the budget is increasing, decreasing, or remaining the same.

The best place to start is by looking through an overview of the entire defense budget [here](#).<sup>1</sup> Then search for those programs in this Directory. You can get an idea whether that program has \$ Billions, or \$ Millions.

(If you're looking at an Army Program, Appendix C lists every contractor to the Army and the program they're associated with. This allows you to understand the incumbents and/or identify potential partners.)

Next, take a look at the [budget documents](#)<sup>2</sup> released by the DoD Comptroller – particularly the [P-1 \(Procurement\)](#)<sup>3</sup> and R-1 ([R&D](#))<sup>4</sup> budget documents.

Combining [the budget document](#) with this PEO directory helps you narrow down which of the 75 Program Executive Offices and 500+ program managers to call on.

With some practice you can translate the topline, account, or Program Element (PE) Line changes into a sales Go-To-Market strategy, or at least a hypothesis of who to call on.

Armed with the program description (it's full of jargon and by 9-12 months out of date) and the Excel download [here](#)<sup>5</sup> and the Appendix [here](#) — you can identify targets for sales calls with DoD where your product has the best chance of fitting in.

The people and organizations in this list change more frequently than the money.

Knowing the people is helpful only after you understand their priorities -- and money is the best proxy for that.

## Army: PEO Joint Program Office Armaments and Ammunition

*Picatinny Arsenal, New Jersey*

*MG John Reim - program executive officer, Armaments and Ammunition*

*Dr. Theresa A. Smith - Deputy Joint Program Executive Officer, Armaments & Ammunition*

### **Project Manager - Close Combat Systems (PM CCS)**

Colonel Vinson "Vince" Morris - Project Manager - Close Combat Systems (PM CCS)

Joe Pelino - Deputy Project Manager - Close Combat Systems (PM CCS)

*provides dominant and innovative lethal and protective capabilities for the Joint Warfighter.*

*The PM is the life cycle program manager in the following Close Combat Systems categories::*

- Terrain Shaping Capabilities and Area Denial*
- Aerial Countermeasures and Pyrotechnics*
- Shoulder-Launched Munitions*
- Hand and Vehicle Deployed Grenades*
- Demolitions and Obstacle Breaching Capabilities*
- Counter Explosive Hazard Detection and Neutralization Capabilities*
- Intermediate Force & Protection System*

### **Project Manager - Combat Ammunition Systems (PM CAS)**

Colonel Leon Rogers - Project Manager - Combat Ammunition Systems (PM CAS)

Pete Burke - Deputy Project Manager - Combat Ammunition Systems (PM CAS)

*Develops, produces, and equips Soldiers and Marines with conventional artillery and mortar ammunition, precision ammunition, mortar weapons, and mortar fire control systems*

- Precision-Guided Munitions*
  - Excalibur 155mm precision-guided artillery round with extended Precision Guidance Kit*
  - Bonus Mk 2 projectile - 155 millimeter artillery-launched, fire-and-forget projectile*
  - C-DAEM DPICM Replacement (XM1208)*
- Precision Fires and Mortars*
  - Accelerated Precision Mortar Initiative (APMI) XM395*

M1155 Enhanced Portable Inductive Artillery Fuze Setter(EPIAFS)  
M1156 Precision Guidance Kit(PGK) is a GPS guidance kit  
M121 Carrier Mounted Mortar System

- *Conventional Ammunition*  
Artillery Ammunition  
Mortar Ammunition

### **Project Manager- Maneuver Ammunition Systems (PM MAS)**

Colonel Steve Power - Project Manager- Maneuver Ammunition Systems (PM MAS)  
Robert Kowalski - Deputy Project Manager- Maneuver Ammunition Systems (PM MAS)  
*Programs provide ammunition to Warfighters (Army, Navy, Air Force, Marines)*  
*Product Manager Small Caliber (PdM SCA)*  
*Product Manager Medium Caliber (PdM MC)*  
Lt. Col. Saleem Khan - Product Manager Medium Caliber (PdM MC)  
*Product Manager Large Caliber (PdM LC)*  
Matthew Nestor - Product Manager Large Caliber (PdM LC)  
*Product Director Special Ammo & weapons Systems (PD SAWS)*

### **Project Lead Tactical Artillery Systems (PM TAS)**

Christopher Hatch - Acting Project Lead Tactical Artillery Systems (PM TAS)  
develops, equips and sustains Cannon Artillery and Survey Systems.

*The project lead manages the following tactical artillery systems:*

- *Cannon Artillery Systems*
- *Towed Howitzer Systems*
- *Digital Fire Control Integration*
- *Surveying Systems*

### **Project Lead - Joint Ammunition and Weapons Systems JAWS (PL JAWS)**

Frank Altamura - Project Lead Joint Ammunition and Weapons Systems JAWS (PL JAWS)  
Leads the Single Manager for Conventional Ammunition's (SMCA) acquisition responsibility as the Project Manager for Bombs, Energetics, Navy Gun Ammunition and Army Aviation CAD/PADs

*General Purpose Bombs*

- MK80 Series (500-2000lb)
- BLU-110 (1000lb) Bomb
- BLU-111 (500lb) Bomb
- BLU-117 (2000lb) Bomb
- MK 81 (250lb) Bomb
- MK82 (500lb) Bomb
- MK83 (1000lb) Bomb
- MK84 (2000lb) Bomb w/JDAM
- Inert Bombs
- BLU-129/B (500lb) Bomb

*Penetrator Bombs*

- BLU-109 is a 2000lb hard target penetrator warhead

*Practice Bombs*

BDU-33(25lb) Bomb

MK76 (25lb) Bomb

## Project Lead - Joint Services

LTC Joshua L. Headley - Project Lead Joint Services

Melissa L. Markos- deputy Project Lead Joint Services

*Works with industry partners to operate and maintain six Army ammunition plants across the country: Holston Army Ammunition Plant- Kingsport, TN (explosives); Iowa Army Ammunition Plant Middletown, IA (load/assemble/pack); Lake City Army Ammunition Plant, Independence, MO (small caliber); Quad City Cartridge Case Facility, Rock Island, IL (large caliber cartridge cases); Radford Army Ammunition Plant Radford, VA (propellants); Scranton Army Ammunition Plant Scranton, PA (metal parts)*

## **Directorate of Integration (DOI)**

Eugene Conner – Director of Integration, (DOI)

Influences and guides action across the JPEO Armaments and Ammunition portfolio

*The Directorate leads effort for the JPEO A&A on the following topics:*

- *Assured Position Navigation and Timing/ NAVWAR*
  - *Ammunition Logistics R&D*
  - *Assured Munitions/ Supply Chain management*
  - *Digital Engineering and Modular Open Systems Architecture*
  - *Technology transition to Programs of Record (SBIR/ TMI/ ManTech/ 6.3 investments, etc.*
  - *Manage externally funded R&D*
  - *Environmental, Safety and Occupational Health*
  - *JPEO A&A Chief Technology Officer*
  - *JPEO A&A Chief Systems Engineer*
- 

## Army: PEO Aviation

*Huntsville, Alabama*

*BG David Phillips - Program Executive Officer, Aviation*

*Rodney Davis - Deputy Program Executive Officer, Aviation*

## **Apache Attack Helicopter**

COL Daniel Thetford - Project Manager Apache Attack Helicopter

## **Aviation Mission Systems & Architecture - James Bamburg - Project Manager**

James Bamburg - Project Manager Aviation Mission Systems & Architecture

## **Aviation Turbine Engines**

Regina Bublitz - Project Manager Aviation Turbine Engines -

## **Cargo Helicopters**

COL Jennie Conlon - Project Manager Cargo Helicopters

## **Fixed Wing**

COL Joseph Minor - Project Manager Fixed Wing Aircraft

## **Future Attack Reconnaissance Aircraft**

Michael (Ski) Horrocks - Project Manager Future Attack Reconnaissance Aircraft

*Programs*

*High Accuracy Detection and Exploitation System (HADES)*

## **Future Long-Range Assault Aircraft**

COL Jeffrey Poquette - Project Manager Future Long-Range Assault Aircraft -

## **Uncrewed Aircraft Systems**

COL Danielle Medaglia - Project Manager Uncrewed Aircraft Systems

*Programs*

*Gray Eagle*

*Shadow*

*Future Tactical UAS (FTUAS)*

*SUAS Family of Systems (Short, Medium, Long-Range Reconnaissance systems)*

*Launched Effects (LE)*

*Uncrewed Vehicle Control (UVC) programs*

*Company-Level Small Uncrewed Aircraft System*

- Anduril: Ghost X
- Performance Drone Works: C-100

## **Utility Helicopters**

COL Ryan Nestrta - Project Manager Utility Helicopters

## **Army: PEO Command, Control, Communications-Tactical (PEO C3T)**

*Aberdeen Proving Ground, Maryland*

*Mark C. Kitz - Program Executive Officer Command, Control, Communications-Tactical (PEO C3T)*

## **Integrated Enterprise Network (IEN)**

formerly known as Defense Communications and Army Transmission Systems (DCATS)

Justin "Jay" Shell - Project Manager Integrated Enterprise Network

*Integrated Enterprise Network Portfolio:*

- *Base Emergency Communications System*
- *Global Enterprise Network Modernization – Americas*
- *Global Enterprise Network Modernization – OCONUS*
- *Wideband Enterprise Satellite Systems*

## **Interoperability, Integration and Services (PM I2S)**

Jack Wilson – Project Manager, Interoperability, Integration and Services

integration, acquisition and delivery of modernized network solutions for the Army and the Joint Force.

*Interoperability, Integration and Services Portfolio:*

- *Capability Set Development*
- *Command Post Integrated Infrastructure*
- *Common Hardware Systems*
- *Enterprise – Identity, Credential and Access Management*
- *Tactical Cyber and Network Operations*
- *Tactical Network Initialization and Configuration*

## **Mission Command (PM MC)**

Provide intuitive, adaptive mission command and situational awareness capabilities for the command

Contact Info: (443) 395-2119

*Mission Command Portfolio:*

- *Command Post Computing Environment*
- *Fire Support Command and Control*
- *Joint Battle Command-Platform*
- *Mounted Mission Command*
- *Mission Command Cyber*

**Tactical Network (PM TN)**

Col. Stuart (Stu) McMillan – project manager Tactical Network (PM TN)

Operate and exchange critical data in limited, contested and distributed network environments

Contact Info: (443) 395-7169

*Tactical Network Portfolio:*

- *Allied Information Technology*
- *Commercial Satellite Terminals Programs*
- *Mission Network*
- *Network Modernization*
- *Satellite Communications*
- *Unified Network Capabilities and Integration*

**Tactical Radios (PM TR)**

Mike Hedley – Project Manager Tactical Radios (PM TR)

Provides a range of products that are capable of terrestrial and celestial communications

Contact Info: 443-395-2766, 443-395-6937, 443-395-2420

*Tactical Radio Portfolio:*

- *Combat Net Radio*
- *Communications Security*
- *Helicopter and Multi Mission Radios*
- *Handheld, Manpack and Small-form Fit*
- *Integrated Tactical Network*
- *Waveforms*

**Joint Tactical Networking Center**

Kurt N. Reese - Director Joint Tactical Networking Center

Mathew D. Gurerrieri - Deputy Director Joint Tactical Networking Center

Chaz Johnson - Directorate Lead Business Finance & Operations Joint Tactical Networking Center

**Information Repository (IR)** that provides software code and documentation for reuse based on legal agreements between government and software developers. It provides technical expertise for waveform exportability and to facilitate standardization of key waveform interfaces. Located in Naval Base Point Loma Harbor Drive Annex, located in Point Loma, San Diego

*Technical Analysis & Engineering Services (TA & ESD)*

William Brickner - Directorate Lead Technical Analysis & Engineering Services (TA & ESD)

**Software Solutions and Innovation Directorate (SSID)**

Fritz McNair - Directorate Lead Software Solutions and Innovation Directorate (SSID)

**The Joint Communications Marketplace (JCM)**

is a knowledge repository for tactical communications products and technologies. It is also a collaboration environment enabling the exchange of information between Government stakeholders and Industry. It is intended to serve as a source of research information and a place for Industry to inform the Government of new products and technologies, and for the Government to inform Industry of new needs.

### **Army: PEO Combat Support and Combat Service Support (CS&CSS)**

*Detroit Arsenal, Michigan*

*Brigadier General Camilla A. White - PEO Combat Support and Combat Service Support (CS&CSS)*

*Andrew DiMarco - Deputy PEO Combat Support and Combat Service Support (CS&CSS)*

### **Project Manager - Expeditionary Energy & Sustainment Systems**

Col Laverne O. Amar – Project Manager Expeditionary Energy & Sustainment Systems

Victor Hernandez – Deputy Project Manager Expeditionary Energy & Sustainment Systems

Provide expeditionary energy, force sustainment, and contingency basing capabilities that reduce sustainment demand for the Warfighter.

*Product Manager - Mobile Electric Power Systems (PdM MEPS)*

LTC Thomas Beyerl - Product Manager Mobile Electric Power Systems (PdM MEPS)

Provides tactical and prime electric power (5-60 kW) generation and distribution systems solutions for the DoD

*Product Manager - Force Sustainment Systems (PM FSS)*

LTC Reuben Joseph - Product Manager Force Sustainment Systems (PM FSS)

- Field Fielding - food service equipment
- Field Services - clean and repair combat clothing and textiles, personal hygiene in tactical environments, and mortuary and religious services
- Airdrop - air cargo delivery services
- Shelter Systems - rigid wall shelters, soft wall shelters (tents), heaters
- Environmental Control Units, ballistic protection for shelters, specialty storage containers, and camouflage net systems
- Force Provider Module - containerized base camp for 75, 150 or 550 soldiers
- Future Capabilities Integration Laboratory (FCIL), managed and operated by PM FSS

### **Project Manager - Force Projection**

Kyle Brunner - Project Manager Force Projection

Shon Severns - Deputy Project Manager Force Projection

*Product Manager - Bridging*

Christopher Upton - product manager Bridging

Provide innovative gap crossing capability to the Warfighter

*Product Manager - Engineer, Maintenance and Support Equipment (PdM EMSE)*

LTC Eric Lewis - product manager Engineer, Maintenance and Support Equipment (PdM EMSE)

Provides sets, kits and tools for tracked and wheeled vehicle repair and maintenance, armament and hydraulic systems repair.

*Product Manager - Petroleum and Water Systems*

LTC Michael White - product manager Petroleum and Water Systems

The project manager manages:

-- The Petroleum Quality Analysis System-Enhanced (PQAS-E) is a fully integrated fuel laboratory

- The Modular Fuel System (MFS) for petroleum distribution operations is a rapidly deployable and recoverable fuel storage/distribution system able to receive, store and issue fuels on the battlefield.
- The Fuel System Supply Point (FSSP) consists of fabric storage tanks of various sizes, pumps, filter separators, fittings and hoses.
- The Load Handling System Compatible, Water Tank Rack (Hippo) is a mobile hard wall system providing potable water to theater and brigade units.
- The Tactical Water Purification System (TWPS) is a water purification system capable of supplying 1500 gallons per hour

*Product Director - Test, Measurement and Diagnostic Equipment*

Gerry Cox - product director Test, Measurement and Diagnostic Equipment

Army Test, Measurement, and Diagnostic Equipment (TMDE) and Calibrations Standards to enable weapon systems readiness.

*The project manager manages:*

- *At-Platform Automatic Test Systems*
- *Off-Platform Automatic Test Systems*
- *Calibrations Sets*
- *Test Equipment Modernization*
- *Maintenance Support Device Light & Rugged At Platform Automatic Test Systems*

*Product Manager - Robotic and Autonomous Systems*

Kent Shea - product manager Robotic and Autonomous Systems

Route Clearance Interrogation Systems (RCIS) consists of two capabilities: unmanned, semi- autonomously controlled, highly mobile platforms to support Route Clearance Platoons and the Brigade Combat Teams.

*The projects include:*

- *M160 Robotic Mine Flail*
- *LeaderFollower - links unmanned follower Palletized Load Systems to PLS vehicle*
- *Squad Maneuver Equipment Transport*

*Project Lead - Robot Logistics Support Center*

Greg Dixon – Director Robot Logistics Support Center

Repairs and maintains the Army's fleet of 4,000 robots, which include five different models and 28 unique configurations. These systems are used primarily for route clearance and Explosive Ordnance Disposal missions.

**Joint Project Office – Joint Light Tactical Vehicles**

Vehicles in two variants and four mission package configurations: *general purpose, heavy-guns carrier, close-combat-weapons carrier, and a utility vehicle*

*Light Tactical Vehicles (PdD LTV)*

Aaron Hart – Product Director Light Tactical Vehicles (PdD LTV)

Responsible for the Army's High Mobility Multipurpose Wheeled Vehicle (HMMWV) Vehicles

*Ground Mobility Vehicles*

John Hufstedler – Product Director Ground Mobility Vehicles

Army-GMV 1.1, Infantry Squad Vehicle, and electric Light Reconnaissance Vehicle programs.

**Project Manager - Transportation Systems (PM TS)**

Ray Folden – Project Manager Transportation Systems (PM TS)

Zina Kozak-Zachary – Deputy Project Manager Transportation Systems (PM TS)

*PM Transportation Systems programs include:*

*Heavy Tactical Vehicles (PdM HTV)*

Ray Folden - Product Manager Heavy Tactical Vehicles (PdM HTV)

- M1070A1/M1000 Heavy Equipment Transporter System (HETS)
- M1300/M1302 Enhanced Heavy Equipment Transporter System (EHETS)
- M977A4 Armored Heavy Expanded Mobility Tactical Truck (HEMTT)
- M1075A1 Armored Palletized Load System (PLS)
- M1076 PLS Trailer
- M870A4 Semitrailer Lowbed Construction Equipment Transporter, Trailer
- M917A3 Heavy Dump Truck (HDT)
- Heavy Tactical Vehicles (PdM HTV)
- Multi-Mission Protected Vehicle Systems (PdM MPVS)

*Multi-Mission Protected Vehicle Systems (PdM MPVS)*

Diane McCarthy- Product Manager Multi-Mission Protected Vehicle Systems (PdM MPVS)

- Family of Medium Tactical Vehicles  
(PdM MTV) *Light Medium Tactical Vehicles (LMTV) A1P2: 2.5 Ton & A2: 3 Ton, Medium Tactical Vehicles (MTV) A1P2: 5 Ton & A2: 8 Ton, FMTV based specialty vehicles and trailers.*
- FMTV A2 Group
- Cold Weather All-Terrain Vehicle (CATV)

*Common Tactical Truck*

Alvin Bing- Product Manager Common Tactical Truck

Family of Vehicles (FoV) to replace the M915 Line Haul Tractor & M1088 Medium Tractor, Palletized Load System (PLS), and Heavy Expanded Mobility Tactical Truck (HEMTT).

*Army Watercraft Systems (PdM AWS)*

Benton Gady - Product Manager Army Watercraft Systems (PdM AWS)

- Modular Causeway System  
support for cargo and equipment during intra-theater lift, port opening, waterborne tactical and joint amphibious, riverine, or Joint Logistics-Over-The-Shore (JLOTS) operations.
- Logistics Support Vessel  
transportation for vehicles, containers, and/or general cargo to remote, underdeveloped areas along coastlines and inland waterways; to support unit deployments, relocations, and port to port operations; 7' draft. Crew of 31 to sail.
- Landing Craft Utility (LCU-2000)  
provides cargo transport, inland waterways, unimproved beach landing, emergency passenger transport, self-sustained, 24 double-stacked 20-foot ISO container carrying capacity, and 6' draft. Crew of 12 to sail.
- Landing Craft Mechanized (LCM-8)  
smaller than an LCU, but has similar capabilities. Additional capabilities include medical evacuation, light salvage, diver support, fire fighting, C2 platform, 2 double-stacked 20-foot ISO container carrying capacity, and 5' draft. Crew of 6 to sail.
- Small Tug (ST-900)  
performs floating craft and harbor craft operations. The only towing and terminal watercraft in the AWS inventory. Crew of 12 to sail.
- Maneuver Support Vessel (MSV(L))  
transport multiple combat configured ready-to-fight payloads with crew; a combat configured Abrams tank; or two Strykers with bar armor; or four Joint Light Tactical Vehicles (JLTVs); or two

20-foot or one 40-foot ISO containers; or a Heavy Expandable Mobility Tactical Truck (HEMTT); or a Load Handling System (LHS) and trailer. Crew of 8 to sail.

### **Project Lead - Integration Office**

James "Steve" Roberts - Project Lead Integration

Serves as the link between project offices and the science & technology community and industry.

*Integration Office focus areas are:*

- *Electrification*
- *Arctic Operations*
- *Predictive Logistics*
- *Developing technology road maps, integration and transition agreements*
- *Serving as an interface with the Defense Innovation Unit and Rapid Capabilities and Critical Technologies Office.*

*Laurence Mixon - Special Assistant to the PEO IEW&S*

*Team of seven project managers*

### **Project Management Office - Aircraft Survivability Equipment (PM ASE)**

Col Brock Zimmerman - Project Manager Aircraft Survivability Equipment (PM ASE)

Mr. Stephen O'Brian - Deputy Project Manager Aircraft Survivability Equipment (PM ASE)

*Programs*

*Common System Integration*

- ASE Modernization
- Training Aids Devices, Simulators, and Simulations (TADSS)

*Infrared Countermeasures (IRCM)*

- Advanced Threat Infrared Countermeasures (ATIRCM)
- Common Infrared Countermeasure (CIRCM)

*Missile Warning (MW)*

- Common Missile Warning System (CMWS)
- Improved Threat Detection System (ITDS)

- Limited Interim Missile Warning System (LIMWS)

*Threat Warning (TW)*

- AN/APR-39D(V)2 Radar Warning Receiver
- Laser Detection System (LDS)
- Modernized Radar Warning Receiver (MRWR) E(V)2

**Project Management Office - Cyber and Space (PM C&S)**

Christopher Green - Project Manager Cyber and Space (PM C&S)

Catherine Hammer - Deputy Project Manager Cyber and Space (PM C&S)

*Programs*

*Information Warfare Cyber Infrastructure (IWCI)*

- Joint Common Access Platform (JCAP)

*FIERCE PENGUIN*

-Software Firing Platform System that enables a cyber operator to manage, orchestrate, or interactively execute Offensive Cyber Operations.

*Information Warfare Cyber Development (IWCD)*

- Rapid Capability Development Network (RCDN)
- Foundational Toolkit (FTK)
- Tactical Cyber Equipment Radiofrequency Delivery Effects Platform (TCE RDEP)

*SAVANT CATALYST (SC)*

- Selectively deploy commercial hardware and commercial/custom software to enable passive (SC & DB) network mapping of desired objectives and actively (DB) impact data flows

**Project Management Office - Defensive Cyber Operations (PM DCO)**

Robert Zoppa - Project Manager Defensive Cyber Operations (PM DCO)

Dr. Linda Jones - Deputy Project Manager Defensive Cyber Operations (PM DCO)

*Programs*

*Cyber Analytics and Detection (CAD)*

- Castle Keep (CK)
- Cyber Analytics (CA)
- Threat Emulation (TE)
- User Activity Monitoring

*Cyber Platforms and Systems (CPS)*

- Counter Infiltration (C-I)
- Defensive Cyberspace Operations Tools Suite (DCO Tools)
- Deployable Defensive Cyberspace Operations System (DDS)
- Forensics and Malware Analysis (F&MA)
- Garrison Defensive Cyberspace Operations Platform (GDP)

**Project Management Office - Electronic Warfare and Cyber (PM EW&C)**

Kenneth Strayer - Project Manager Electronic Warfare and Cyber (PM EW&C)

Mark Saxon - Deputy Project Manager Electronic Warfare and Cyber (PM EW&C)

*Programs*

*Electronic Attack (EA)*

- Counter RCIED Electronic Warfare (CREW) / Duke
- Modi Dismounted EW System
- Modular Electromagnetic Spectrum System (MEMSS)
- Multi-Function Electronic Warfare – Air Large (MFEW-AL)

- NAVWAR EW Systems Overhead (NESO)
- Universal Test Set (UTS)

#### *Electronic Warfare Integration (EWI)*

- Electronic Warfare Planning and Management Tool (EWPMT)
- Spectrum Situational Awareness System (S2AS)

#### *Strategic Spectrum Warfare (PL SSW)*

- Terrestrial Layer System – Echelons Above Brigade (TLS EAB)
- Theater SIGINT System (TSIGS)

#### *Terrestrial Spectrum Warfare (TSW)*

- Prophet Enhanced Signals Processing (ESP)
- Tactical Dismounted Electronic Warfare & SIGINT (TDEWS)
- Tactical Electronic Warfare System (TEWS)
- Tactical Electronic Warfare System – Infantry (TEWS-I)
- Terrestrial Layer System – Brigade Combat Team (TLS BCT)
- Terrestrial Layer System Brigade Combat Team (TLS BCT) Manpack

### **Project Management Office - Intelligence Systems and Analytics (PM IS&A)**

Col Chris Anderson - Project Manager Intelligence Systems and Analytics (PM IS&A)

Gregory Hartman - Deputy Project Manager Intelligence Systems and Analytics (PM IS&A)

##### *Project Linchpin*

- Project Linchpin

##### *Intel Enablers (IE)*

- Operational Intelligence Ground Station (OGS), AN/TYQ-224B
- Tactical Intelligence Ground Station (TGS)
- Cross Domain Server Set (CDSS)
- Cross-Domain Enterprise All-source User Repository (CENTAUR)
- Intelligence Fusion Server (IFS)
- Intelligence Processing Center (IPC-v2)

##### *Joint Tactical Terminal (JTT)*

- Joint Tactical Terminal (JTT)

### **Project Management Office - Positioning, Navigation and Timing (PM PNT)**

Michael Trzeciak - Project Manager Positioning, Navigation and Timing (PM PNT)

William Urtoška - Deputy Project Manager Positioning, Navigation and Timing (PM PNT)

#### *Programs*

##### *Dismounted PNT*

- Dismounted Assured PNT System (DAPS)

##### *Mounted PNT*

- Mounted A-PNT System (MAPS)

##### *PNT Modernization*

- PNT Modernization

### **Project Management Office - Sensors and Aerial Intelligence (PM SAI)**

Julie Issac - Project Manager Sensors and Aerial Intelligence (PM SAI)

Tracy Novao - Deputy Project Manager Sensors and Aerial Intelligence (PM SAI)

#### *Programs*

##### *Aerial Enhanced Radars Optics and Sensors (AEROS)*

- Air Launched Effects (ALE) Payloads
- Common Sensor Payload (CSP)
- Small Tactical Radar Lightweight (STARLite)
- Shadow Electro-optic Infrared Laser Designator (SHEILD)

##### *Medium Altitude Reconnaissance and Surveillance System (MARSS)*

- Enhanced Medium Altitude Reconnaissance and Surveillance System (EMARSS)
- Guardrail Common Sensor (GRCS)

##### *Multi-Domain Sensing System (MDSS)*

- Airborne Reconnaissance & Electronic Warfare System (ARES)
- Airborne Reconnaissance Targeting Exploitation Mission Intelligence System (ARTEMIS)
- High Accuracy Detection and Exploitation System (HADES)
- High Altitude Extended-range Long-endurance Intelligence Observation System (HELIOS)
- High Efficiency RF Monitoring and Exploitation System (HERMES)

### **Project Management Office - Tactical Exploitation of National Capabilities (PDM TENCAP)**

Lt Col Nick Forlenza - Project Manager Tactical Exploitation of National Capabilities (PDM TENCAP)

Mark Rooney - Deputy Project Manager Tactical Exploitation of National Capabilities (PDM TENCAP)

#### *Programs*

- QRC's
- HIGHLIGHTED PROJECTS
- Projects

### **Project Management Office - Terrestrial Sensors (PM TS)**

Lareina Adams - Project Manager Terrestrial Sensors (PM TS)

Jerord Wilson - Deputy Project Manager Terrestrial Sensors (PM TS)

#### *Programs:*

##### *Aerostats*

- Persistent Surveillance and Dissemination System of Systems (PSDS2)
- Persistent Surveillance System – Tethered (PSS-T) (Heavy and Medium)

##### *Biometrics*

- DoD Automated Biometric Identification System (ABIS)
- Biometrics Enabling Capability (BEC 0)
- Biometrics Enabling Capability (BEC 1)
- Biometrics Automated Toolset – Army (BAT-A)
- Near Real Time Identity Operations (NRTIO)
- Gate Keeper on the Move - Biometrics (GOTM-B)
- Video Identity Collection and Exploitation (VICE)
- Voice Identity Biometrics Exploitation Services (VIBES)

##### *Combat Terrain Information System (CTIS)*

- Global Positioning System – Survey (GPS-S)
- Instrument Set, Reconnaissance and Surveying (Common Name: ENFIRE)

- The Automated Integrated Survey Instrument (AISI)
- Force Protection Systems (FPS)*
- Automated Installation Entry (AIE)
  - Security Surveillance System (SSS)
  - Integrated Commercial Intrusion Detection System (ICIDS)
  - Ground-Based Operational Surveillance System (Expeditionary) (G-BOSS(E))
  - Base Expeditionary Targeting Surveillance Systems – Combined (BETSS-C)
  - Counter Vehicle-Borne Improvised Explosive Device (C-VBIED)
  - Non-Intrusive Inspection Systems (NIIS)
  - Entry Control Point (ECP)
- Ground Sensors (GS)*
- Long Range Advanced Scout Surveillance System (LRAS3/FS3)
  - Vehicle Optics Sensor System (VOSS)
  - Third Generation Forward Looking Infrared (3GEN FLIR)
  - Driver's Vision Enhancer (DVE)
  - Boomerang Generation III (BG III)
  - Expendable-Unattended Ground Sensor (E-UGS)

## **Army: PEO Missiles and Space (PEO MS)**

*Redstone Arsenal, Alabama*

*Maj. Gen. Frank J. Lozano - Program Executive Officer Missiles and Space (PEO MS)*

*Col. Guy Yelverton - Deputy for Acquisition and Systems Management Missiles and Space (PEO MS)*

### **Integrated Fires Mission Command (IFMC)**

Col. Christopher M. Hill Sr. - Program Manager Integrated Fires Mission Command (IFMC)

Provides common integrated fire control across all Army air and missile defense echelon. Develops, tests, acquires, fields, and sustains integrated fires capabilities through weapon and sensor integration and a common mission command system

*IFMC provides life cycle management for the following products:*

- *Integrated Battle Command System (IBCS)*
- *Legacy PATRIOT Ground Support Equipment (GSE)*
- *Air and Missile Defense Planning and Control System (AMDPCS)*
- *Forward Area Air Defense Command and Control (FAAD C2)*
- *Rocket, Artillery, Mortar (RAM) Warn*
- *Remote Interceptor Guidance - 360 degrees (RIG-360)*

### **Short and Intermediate Effectors for Layered Defense Project Office (SHIELD)**

Col. Andrew Lunoff - Program Manager Short & Intermediate Effectors for Layered Defense Project Office (SHIELD)

the Army's centralized solutions manager to detect and defeat Cruise Missiles (CM), Unmanned Aircraft Systems (UAS), Rotary and Fixed Wing Threats, and Rockets, Artillery and Mortars (RAM) for the SHIELD family of missiles, sensors, lasers and launchers, and for the integration of these weapon systems within

a Battle Management Command, Control, Communications, Computers and Intelligence (BMC4I) framework.

*The SHIELD portfolio includes:*

- *The Maneuver-Short Range Air Defense (M-SHORAD) Product Office*
- *The Indirect Fire Protection Capability Increment 2 (IFPC Inc 2) Product Office*
- *The Lower Tier Interceptors and Launchers Product Office*
- *The Land-based Phalanx Weapon System (LPWS) Product Office*

### **Search Track Acquire Radiate Eliminate (STARE)**

Col. Jonathan A. Bodenhamer - Program Manager Search Track Acquire Radiate Eliminate (STARE) Manages Army air defense artillery and field artillery sensors. develop, test, acquire, field and sustains radar and sensor technologies for long-range detection, discrimination, tracking, and destruction of multi-domain threats.

*STARE provides life cycle management for the following products:*

- *Lower Tier Air and Missile Defense Sensor (LTAMDS)*
- *Multi-Mission Surveillance Systems (M2S2) -- AN/TPQ-53, AN/TPQ-50, AN/TPQ-36/37 radars*
- *Sentinel*
- *Army Long-Range Persistent Surveillance (ALPS)*
- *Range Radar Replacement Program (RRRP)*

### **Strategic and Operational Rockets and Missiles (STORM)**

Ronald Holliday - Program Manager Strategic and Operational Rockets and Missiles (STORM) Responsible for the development, testing, acquisition, fielding and sustainment of Artillery portfolio of launchers and munitions.

*STORM provides life cycle management for the following products:*

- *Multiple Launch Rocket System (M270A1 MLRS)*
- *High Mobility Artillery Rocket System (M142 HIMARS)*
- *Army Tactical Missile Systems (ATACMS)*
- *Guided Multiple Launch Rocket Systems (GMLRS/U/AW2)*
- *Precision Strike Missile (PrSM)*
- *Low Cost Reduced Range Practice Rocket (LCRRPR)*

### **Tactical Aviation and Ground Munitions Project Office (TAGM)**

Craig Riedel - Program Manager Tactical Aviation and Ground Munitions Project Office (TAGM)

*Develops, fields, and sustains air and ground launched weapon systems:*

- *HELLFIRE Missile System (ACAT IC)*
- *Joint Air-to-Ground Missile (JAGM) System (ACAT IC)*
- *Aviation Rockets and Small Guided Munition Systems (ACAT IC)*
- *Tube-Launched, Optically-Tracked, Wireless-Guided Missile (TOW) (ACAT IC)*
- *Assigned Rapid Capabilities and Enabling Products (e.g. Launchers, Test Sets)*
- *Improved Target Acquisition Systems (ITAS) (ACAT III)*
- *Javelin Weapon System (ACAT IC)*
- *Lethal Miniature Aerial Missile System (LMAMS)*
- *Other Rapid Capability Systems*

### **Integrated Fires Rapid Capabilities Office (IFRCO)**

Jeannie Sommer - Senior Leader Integrated Fires Rapid Capabilities Office (IFRCO)

Delivers integrated fires capability to the Army and joint warfighting community.

## **Army: PEO Soldier**

*Fort Belvoir, Virginia*

*Maj. Gen. Christopher Schneider - Program Executive Officer, Soldier*

*Andrew T. Clements - Deputy Program Executive Officer, Soldier*

*Gary Keller, Assistant PEO for Futures and Integration, Soldier*

*Sgt Major Daniel S. Rose - PEO Soldier Sergeant Major, Soldier*

### **Project Manager Soldier Survivability (PM SSV)**

*Product Manager Soldier Clothing & Individual Equipment (PdM SCIE)*

*Programs include:*

- Army Combat Boot (Temperate Weather)
- Army Combat Uniform (ACU)
- Ghillie Suit Accessory Kit (GSAK) Upgrade

*Product Manager Soldier Protective Equipment (PdM SPE)*

*Programs include:*

- Advanced Bomb Suit (ABS)
- Military Combat Eye Protection (MCEP), Spectacles
- Pelvic Protection System (PPS)

*Product Manager Air Warrior (PdM AW)*

*Programs include:*

- Air Soldier System (AirSS)

### **Project Manager Soldier Lethality (PM SL)**

Develops, produces and fields current and future weapons systems, as well as associated target acquisition/fire control products.

*Product Director Crew Served Weapons (PdD CSW)*

*Programs include:*

- Lightweight M3A1 Multi-role Anti-armor Anti-personnel Weapon System (MAAWS)
- M153/A1/A2 Common Remotely Operated Weapon Station (CROWS)
- M240B/L/H 7.62mm Medium Machine Gun
- View More

*Product Manager Soldier Weapons (PdM SW)*

*Programs include:*

- XM7 Next Generation Squad Weapon - Rifle
- XM250 Next Generation Squad Weapon – Automatic Rifle
- MK22 Precision Sniper Rifle (PSR)
- View More

*Product Manager Small Arms Fire Control (PdM SAFC)*

*Programs include:*

- XM157 Next Generation Squad Weapons – Fire Control
- Family of Weapon Sights Individual (FWS-I)
- Family of Weapon Sights Sniper (FWS-S)
- STORM Micro-Laser Range Finders (PSQ Series)

- [View More](#)

### **[Project Manager Soldier Warrior \(SWAR\)](#)**

delivers and sustains innovative warfighting solutions that detects, identify and provide persistent insights to enable maneuver and lethal effects on enemy forces.

*Product Manager Integrated Visual Augmentation System (PdM IVAS)*

IVAS integrates Heads-Up Display (HUD), Squad Radio and Tactical Cloud Package (TCP)

*Programs include:*

- Integrated Visual Augmentation System

*Product Manager Soldier Precision Targeting Devices (PdM SPTD)*

*Programs include:*

- Joint Effects Targeting System (JETS)

*Product Manager Soldier Maneuver Sensors (PdM SMS)*

*Programs include:*

- Enhanced Night Vision Goggle – Binocular (ENVG-B)

- Nett Warrior

- Soldier Borne Sensor (SBS)

### **[Project Manager Soldier Medical Devices \(PM SMD\)](#)**

Develops, delivers, and sustains deployable medical capabilities. SMD exists to advance medical acquisition project management, as well as provide technical expertise up, down, and across the U.S. Army medical acquisition domain.

*Product Manager Hospitalization (PdM HOSP)*

*Programs include:*

- Forward Resuscitative and Surgical Detachment
- Cutter Aspirator Virectomy
- Cranitome Set
- [View More](#)

*Product Manager Treatment and Evacuation (PdM T&E)*

Ensures MEDEVAC has the proper equipment to perform lifesaving treatment, sick call services, stabilization, patient evacuation, and dental treatment to maximize return to duty.

*Programs include:*

- Medical Equipment Set Physical Therapy
- Portable Automatic Enhanced Resuscitator
- Tactical Combat Medical Care

## **[Army: PEO Joint Chemical, Biological, Radiological and Nuclear Defense \(JPEO-CBRND\)](#)**

*Aberdeen Proving Ground, Maryland*

*Darryl J. Colvin - PEO, Joint Chemical, Biological, Radiological and Nuclear Defense (JPEO-CBRND)*

*Nicole Kilgore - Deputy PEO, Joint Chemical, Biological, Radiological, Nuclear Defense*

*Gordon Graham - Chief of Staff, Joint Chemical, Biological, Radiological, Nuclear Defense*

Wyatt Ulrich - Director for Acquisition & Systems Management, Joint Chemical, Biological, Radiological and Nuclear Defense (JPEO-CBRND)

*Ed Lawson - Senior Strategist For Joint Warfighting Concept – Integrated, Joint Chemical, Biological, Radiological and Nuclear Defense (JPEO-CBRND)*

Manages chemical, biological, radiological, and nuclear (CBRN) defense equipment.

*Four Joint Project Management (JPM) Offices:*

CBRN Protection, CBRN Medical, and CBRN Sensors, and CBRN Special Operations Forces.

Two Joint Project Leads (JPL) focus on CBRN Defense Enabling Biotechnologies and CBRN Integration.

The JPLs provide portfolio-wide enabling support across the JPEO-CBRND.

**Chemical, Biological, Radiological and Nuclear Protection (JPM CBRN Protection)**

Steven Batts - Joint Project Manager for CBRN Protection

Stacey Shepherd - Joint Deputy Project Manager for Chemical, Biological, Radiological and Nuclear Protection (JPM CBRN Protection)

(703) 617-2465, Chief of Staff – (703) 617-2427

# Navy

## Asst Secretary Navy for Research Development and Acquisition (ASN RD&A)

is responsible for the development and *acquisition* of Navy and Marine Corps platforms and weapon systems. The organization consists of an immediate staff to the Assistant Secretary, **Program Executive Officers** (PEOs), Direct Reporting Program Managers (DRPMs) and the Naval Systems Commands and their field activities.

The PEOs and DRPMs are responsible for the development and acquisition of Naval systems. The Naval Systems Commands and their field activities are also responsible for systems acquisition and supporting those systems in the operating Fleet. The Assistant Secretary represents the Department of the Navy to USD(A&S), USD(R&E) and to Congress on all matters relating to acquisition policy and programs

## Naval Sea Systems Command NAVSEA

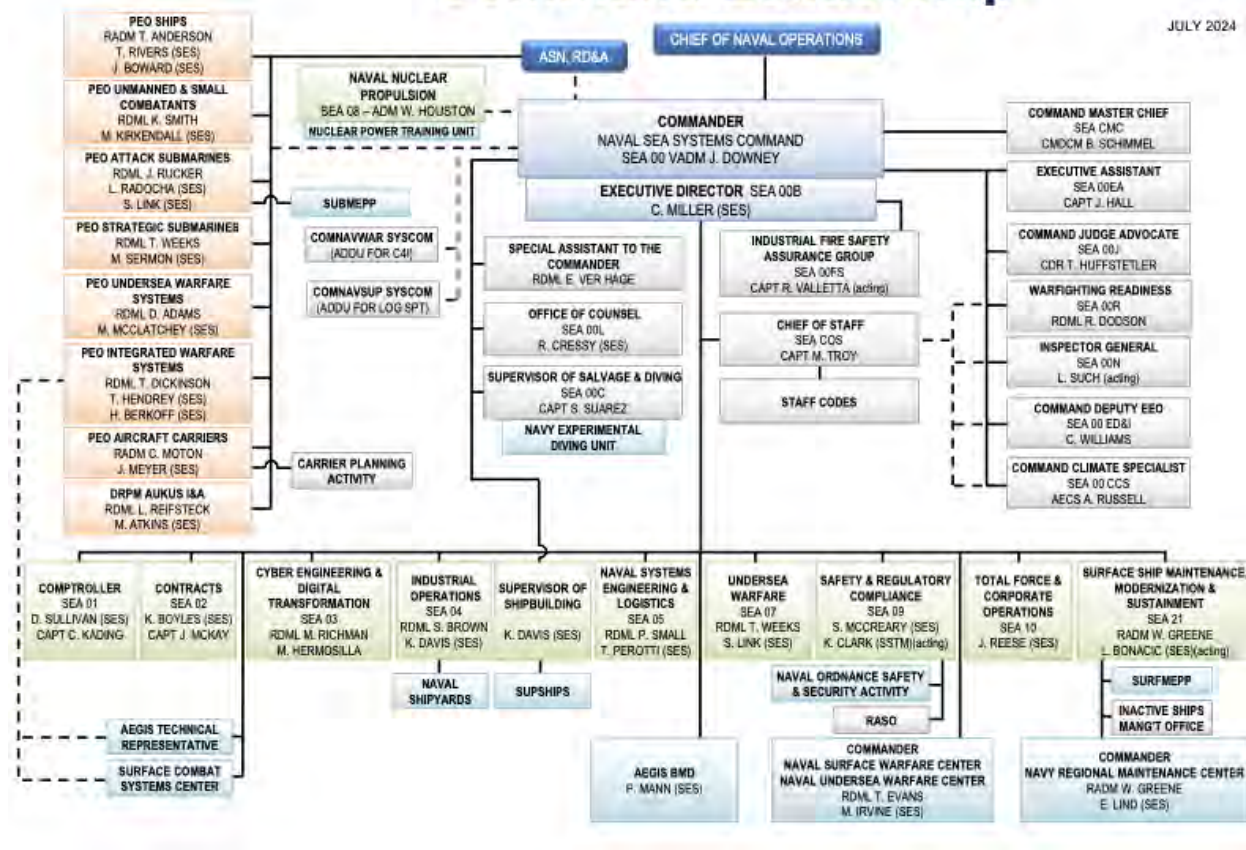

NAVSEA has seven affiliated Program Executive Offices (PEOs) are responsible for all aspects of life-cycle management of their assigned programs. PEOs report to the NAVSEA commander for planning and execution of in-service support, and to the Assistant Secretary of the Navy for Research, Development and Acquisition for acquisition-related matters

- **PEO Aircraft Carriers** focuses on the design, construction and delivery, and life-cycle support of all aircraft carriers and the integration of systems into aircraft carriers.
- **PEO Integrated Warfare Systems** develops, delivers and sustains operationally dominant combat systems for Sailors.
- **PEO Ships** manages acquisition and complete life-cycle support for all U.S. Navy non-nuclear surface ships. These ships range from frontline combatants to amphibious ships that transport Marines and their equipment to supply and replenishment cargo ships. For these and all other non-nuclear surface craft, PEO Ships maintains “cradle to grave” responsibility including research, development, acquisition, systems integration, construction and lifetime support.
- **Team Submarine** comprises PEO UWS, PEO Attack Submarines, PEO Strategic Submarines, and the AUKUS Integration & Acquisition Office
  - **PEO Attack Submarines** aligns Virginia-class efforts under one Flag officer.
  - **PEO Strategic Submarines** (formerly PEO Columbia) proactively manages the Ohio-to-Columbia transition, including strategic shore infrastructure and industrial base capacity, to ensure uninterrupted sea-based strategic deterrent coverage into the 2080s
  - **PEO Undersea Warfare Systems** enables the delivery of enhanced combat capability, with improved cybersecurity and resiliency, to all submarine platforms.
  - **AUKUS Direct Reporting Program Office**
- **PEO Unmanned and Small Combatants** designs, develops, builds, maintains and modernizes the Navy's expanding family of unmanned maritime systems, mine warfare systems, and Small Surface Combatants by employing the full arsenal of acquisition authority to develop and deliver innovative solutions and technologies to support the Navy.

## NAVSEA: PEO Aircraft Carriers (PEO Carriers)

*RDML Casey Moton - Program Executive Officer, Aircraft Carriers (PEO Carriers)*

*Justin T. Meyer - Executive Director, Program Executive Office, Aircraft Carriers*

Provides the Navy with design, construction and delivery, and life-cycle support of all aircraft carriers and the integration of systems into aircraft carriers.

*Aircraft Carrier Programs:*

### **CVN 78 Class Program (PMS 378)**

Captain Brian Metcalf - Program Manager, FORD Class Aircraft Carriers (PMS 378)

Nick Baumgardner – Deputy Program Manager, FORD Class Aircraft Carriers (PMS 378)

### **In-Service Aircraft Carrier Program (PMS 312)**

Capt Mark Johnson - Program Manager, In-Service Aircraft Carriers (PMS 312)

### **CVN 79/80 Program (PMS 379)**

Executive Director for the Program Office, Aircraft Carriers (202) 781-2951

PMS 312 In-Service Aircraft Carrier Program Manager (202) 781-3208

PMS 378 CVN 78 Program Manager (202) 781-3969

PMS 379 CVN 79/80 Program Manager (202) 781-4903

## **NAVSEA: PEO Integrated Warfare Systems (PEO IWS)**

*Rear Adm. Tom Dickinson - Program Executive Officer, Integrated Warfare Systems (PEO IWS)*

*Ryan Moore -Deputy Program Executive Officer, Integrated Warfare Systems (PEO IWS)*

*Van Hendrey - Executive Director, Integrated Warfare Systems*

*Howard Berkof - Director, Production, Deployment, & Fleet Readiness Program Executive Office*

*Brian Langley - Baseline Manager, Integrated Warfare Systems*

*Jim Juster - Chief Technology Officer, PEO IWS*

*Cmdr. Richard Jimenez - Principal Assistant Program Manager-Fleet Introduction Director, PEO IWS*

Provides the Navy with design, construction, and delivery of combat systems for surface ships. Largest PEO in the Navy.

PEO (IWS) comprises five integrated combat systems major program offices, and seven product major program offices:

*Integrated combat systems major program offices:*

### **IWS 1.0: AEGIS Program**

*Capt. Jill Cesari – Program Executive Officer IWS 1.0, Aegis Integrated Combat Systems*

*Capt. Andrew Biehn - Program Executive Officer IWS, Special Projects*

*Capt. John Bowman - Program Executive Officer IWS 1F, Aegis Fleet Readiness Programs*

*AEGIS Combat System Cruiser and Destroyer modifications*

*AEGIS Ashore*

*USCG Common Combat Systems and Navy-Type, Navy Owned Equipment*

*SPA-25 Radar System*

*SPQ-14/15 - Data Distribution System*

### **PEO IWS 2.0 - Above Water Sensors and Lasers**

*Kathleen Sutherland - Program Executive Officer IWS 2.0 Deputy, Above Water Sensors & Lasers*

Develops, procures and sustains radars, electronic warfare systems, electro-optic / infrared sensors, offboard decoys and directed energy systems.

*Responsible for*

*AN/SPY-6 - active electronically scanned array 3D radar*

*AN/SPQ-9B - an X-Band, pulse Doppler, frequency agile radar*

*AN/SLQ-32 - shipboard electronic warfare suite*

*NGSSR – Next Generation Surface Search Radar*

*SEWIP – Surface Electronic Warfare Improvement Program*

*AOEW - Advanced Off-Board Electronic Warfare*

*Nulka - rocket-propelled, disposable, offboard, active decoy designed to lure anti-ship missiles*

*HELIOS - High Energy Laser with Integrated Optical-dazzler and Surveillance*

*ODIN - Optical Dazzling Interdictor, Navy*

### **PEO IWS 3.0 - Surface Ship Weapons**

*Capt. Thomas Seigenthaler - Program Executive Officer IWS 3.0, Surface Ship Weapons*

Designs, produces, fields and maintains naval surface weapons systems. Responsible for weapons and launchers such as OTH-WS, SM-2, SM-6, VLS, Mk 110, and Gun Ammo.

#### **IWS 4.0: International Programs & Foreign Military Sales (FMS) Program**

*Capt. Jason Patterson - Program Executive Officer IWS 4.0 International Programs*

Procures and supports integrated combat systems and combat system elements for our international partners. Coordinates International initiatives and technology transfer policies.

#### **PEO IWS 5.0 - Undersea Systems**

*Capt. Leroy Mitchell - Program Executive Officer IWS 5.0 Undersea Systems*

Responsible for acquisition and life cycle support of all submarine, surface ship undersea sensors, and command & weapons control systems that deliver capability across multiple PEOs.

*Programs:*

*AN/SQQ-89 Undersea Warfare Combat System anti-submarine warfare (ASW) system*

*SVTT MK-32 - two-barrel torpedo launcher*

*USWDSS*

*UQN-4A/10 - next-generation fathometer*

*WQC-2A/6 - single sideband, general-purpose voice and CW communication set*

*SRQ-4 - high-bandwidth (Ku) communications link*

*NAUTIC*

#### **PEO IWS 6.0 - Command and Control**

*Capt. Tim King - Program Executive Officer IWS 6.0, Command & Control*

Develops, delivers, and sustains continuous and superior sensor netting, track management, and precision navigation to the Navy and Marine Corps Team.

*Responsible for*

*Cooperative Engagement Capability (CEC) and CEC Block 3 – real time sensor fusing and netting*

*MIPS*

*AN/BSN-2- Digital Depth Detector (DDD)*

*AN/WSN-8/8A - Digital Electromagnetic Log (DEML)*

*AN/WSN-9 - Digital Hybrid Speed Log (DHYSL)*

*AN/WSN-7B RLG*

*Scalable ECDIS-N*

#### **PEO IWS 80 - Atalanta Integrated Combat Systems**

*Elizabeth Major - Program Executive Officer IWS 80 Deputy, Atalanta Combat Systems*

*Capt. Andrew J. Hoffman – Atalanta Integrated Combat Systems program officer*

Develops, certifies, tests, and manages the Combat Management Systems for FREEDOM and INDEPENDENCE variant LCS and SSDS platforms. Developing the Lethality and Survivability upgrade for LCS, the Integrated Combat System for Unmanned Surface Vessels, and Navy/Marine Corps C2 Afloat systems. Fleet Liaison for LCS, CVN, LHA/D, LPD, LSD platforms and responsible for all matters related to in-service readiness, sustainment, and improving capability and maintenance within the Fleet.

#### **IWS 9.0: Zumwalt Integrated Combat System Program**

*CAPT Shanley - Program Executive Officer IWS 9 Zumwalt Combat System*

Procures, Integrates, Tests, and Deploys the Total Ship Computing Environment and Integrated Combat System on DDG1000 Class Ships.

#### **IWS 11.0: Terminal Defense Systems Program**

*CAPT Sarah Rice - Program Executive Officer IWS 11 Terminal Defense Systems*

Provides optimal Inner Layer Defense against the most stressing current and evolving Anti-Ship Cruise Missile (ASCM) threats. Responsible for systems such as RAM GML, SeaRAM, CIWS, RAM BLK 1, and RAM BLK 2.

### **IWS 12.0: NATO Seasparrow Program**

*Capt. Tyson Young - Program Executive Officer IWS 12, NATO Seasparrow*

Delivers ship-defense capabilities to warfighters and provides economic and military benefits to Consortium Nations. Responsible for systems such as ESSM BLK 1, ESSM BLK 2, and RIM-7/MK57 NSSMS.

### **IWS X, Integrated Combat Systems**

*Capt. Brian Phillips - Program Executive Officer IWS X, Integrated Combat Systems*

## **NAVSEA: PEO Ships (PEO Ships)**

*Rear Admiral Tom J. Anderson - Program Executive Officer, (PEO Ships)*

*Tom Rivers - Executive Director, Amphibious, Auxiliary and Sealift, Program Executive Office*

*Cord Luby - Chief of Staff, Program Executive Office, (PEO Ships)*

*CMDCM James Timmerman - Command Master Chief, Program Executive Office, (PEO Ships)*

Provides the Navy with acquisition and complete life-cycle support for all *non-nuclear surface* ships.

*Carolyn Liebeck - Director of Corporate Operations*

*Lisa Bonacic-Doric - Deputy Commander, Navy Regional Maintenance Center and Executive Director, Surface Ship Maintenance and Modernization*

*Eric K. Lind - Executive Director, Navy Regional Maintenance Center*

*Richard "Rick" F. Wicker III - Chief of Staff, Navy Regional Maintenance Center and Surface Ship Maintenance and Modernization*

*CMDCM Demetric M. Hairston, USN -Command Master Chief, Surface Warfare/Aviation Warfare*

*Matthew Sermon - Executive Director, Amphibious, Auxiliary and Sealift Office PEO Ships*

Responsible for the LPD 17 Program (PMS 317), the Amphibious Warfare Program (PMS 377), the Strategic and Theater Sealift Program (PMS 385), and the Support Ships, Boats and Craft Program (PMS 325).

### **Amphibious Assault & Connectors Program LPD 17 Program PMS 317**

*CAPT Jason Gabrelle – Program Manager Amphibious Assault & Connectors Program PMS 317*

*Angela Bonner – Deputy Program Manager Amphibious Assault & Connectors Program PMS 317*

*Programs include:*

*Medium Landing Ship (LSM)*

*Landing Craft Air Cushion Service Life Extension Program (LCAC SLEP)*

*Landing Craft Utility (LCU)*

*Ship to Shore Connector (SSC)*

### **Support Ships, Boats and Craft Program PMS 325**

*Jill J. Boward - Executive Director, Combatants Program Executive Office, PEO Ships*

Responsible for the DDG 51 program (PMS 400D), the DDG 1000 program (PMS 500), the DDG(X) program (PMS 460), the Government Equipment Management (GEM) office.

*Programs include:*

*Auxiliary Ships: T-AO 205*

*Integrated Undersea Surveillance Systems: T-AGOS(X), T-ARC(X)*  
*Special Mission Ships: NOAA NAV, T-AGS 67, T-AGS(X), T-ATS*  
*Next Generation Logistics Ships (NGLS)*

**Arleigh Burke Class Destroyer DDG 51 program PMS 400D**

Capt. Seth Miller, DDG 51 Class program manager

*Program includes:*

*Arleigh Burke Class Destroyer (DDG 51)*

**Guided Missile Destroyer (DDG (X)) Program Office PMS 460**

Capt David Hart - Guided Missile Destroyer (DDG (X)) Program Office PMS 460

*Program include:*

*Guided Missile Destroyer (DDG(X))*

**Zumwalt Class Destroyer DDG 1000 program PMS 500**

Capt Clinton T. Lawler – program manager Zumwalt Class Destroyer DDG 1000 program PMS 500

*Program includes:*

*Zumwalt Class Destroyer (DDG 1000)*

**Polar Security Cutter PMS 373**

Captain Timothy Barreiro - Program Manager for the Polar Security Cutter Program (PMS 373)

The Polar Security Cutters (PSC) are designed to enhance the Coast Guard's ability to operate in the Arctic and Antarctic

*Program includes:*

*Polar Security Cutter*

**Amphibious Warfare Program PMS 377**

Capt Matthew L. Tardy – Program Manager Amphibious Warfare Program PMS 377

*Programs include:*

*Amphibious Assault Direction System (AADS)*

*Amphibious Assault Ship (LHA)*

*Amphibious Transport Dock (LPD)*

**Strategic and Theater Sealift Program PMS 385**

TRoberts–Program Manager Strategic and Theater Sealift Program PMS 385

Jon Thomas – Deputy Program Manager Strategic and Theater Sealift Program PMS 385

*Programs include:*

*Submarine Tender (AS)*

*Expeditionary Fast Transport (EPF)*

*Expeditionary Sea Base (ESB)*

*Large, Medium-Speed, Roll-on/Roll-off Ship (T-AKR)*

---

**[NAVSEA: PEO Strategic Submarines \(PEO SBN\)](#)**

*Rear Admiral Scott Pappano - Program Executive Officer, Strategic Submarines (PEO SBN)*

*Matthew D. Sermon - Executive Director, Strategic Submarines (PEO SBN)*

Provides the Navy with design, construction, and delivery of the Columbia-class fleet ballistic missile submarine.

*PEO (Columbia) comprises one major program office:*

### **PMS 397: COLUMBIA Class Program Office**

---

#### **NAVSEA: PEO Attack Submarines (PEO SSN)**

*Adm. Jonathan Rucker - Program Executive Officer, Attack Submarines (PEO SSN)*

*Lisa M. Radocha - Executive Director, Attack Submarines (PEO SSN)*

*Stephanie Link - Executive Director, In-service Submarines Program Executive Office (PEO SSN)*

Provides the Navy with platform acquisition, development, and sustainment. Program offices executing design, development, acquisition, and delivery are aligned in one branch under the new construction SSNs Executive Director. In-service submarine program offices and Submarine Maintenance Engineering, Planning and Procurement (SUBMEPP) are aligned under the In-Service Executive Director.

*PEO (Submarines) comprises seven major program offices:*

#### **PMS 401: Submarine Acoustic Systems Program**

Captain Mike Hollenbach - program manager for Submarine Acoustic Systems PMS 401

#### **PMS 404: Undersea Weapons Program**

Capt Chris Polk - program manager for Undersea Weapons PMS 404

#### **PMS 415: Undersea Defensive Warfare Systems Program**

CAPT Gene Severtson - Program Manager for Undersea Defensive Warfare Systems PMS 415

#### **PMS 425: Submarine Combat and Weapons Control Program**

Capt David Vehon - Senior Program Manager - PMS 425, Submarine Combat and Weapons Control

#### **PMS 435: Submarine Electromagnetic Systems Program**

CAPT William Filip - Program Manager Submarine Electromagnetic Systems (PMS 435)

#### **PMS 450: VIRGINIA Class Program**

CAPT Mike Hollenbach - Program Manager Virginia Class Submarines (PMS 450)

#### **PMS 485: Maritime Surveillance Systems Program**

CAPT Sean Fujimoto -- Program Manager Maritime Surveillance Systems

Don Ringel – asst program manager

*Deployable Surveillance Systems*

Susan LaShomb - principal assistant program manager of the Deployable Surveillance Systems

---

#### **NAVSEA: PEO Undersea Warfare Systems (PEO UWS)**

*Rear Adm. Douglas Adams - Program Executive Officer, Undersea Warfare Systems (PEO UWS)*

*Michael D. McClatchey - Executive Director, Undersea Warfare Systems (PEO UWS)*

PEO UWS includes the undersea domain program integration office for Project Overmatch and organizes these programs, projects, and efforts to directly support DRPM Overmatch. All Team Subs Participating Resource Managers (PARM) program offices are aligned under PEO UWS. The offices are responsible for submarine training; submarine logistics; and submarine safety.

### **Advanced Undersea Systems PMS 394**

Capt. Grady Hill - program manager advanced undersea Systems PMS 394

Enables the delivery of enhanced combat capability, with improved cybersecurity and resiliency, to all submarine platforms.

---

### **NAVSEA: PEO AUKUS Direct Reporting Program Office**

*RDML L. Reifsteck - program manager, AUKUS Direct Reporting Program Office*

*M. Atkins - deputy program manager, AUKUS Direct Reporting Program Office*

AUKUS Integration & Acquisition Office: The Australia, United Kingdom, and United States (AUKUS) partnership is a strategic endeavor that strengthens the three nation's national security and promotes peace and stability in the Indo-Pacific region. The AUKUS Integration and Acquisition (I&A) Program Office is responsible for executing the "Optimal Pathway" announced by the three nations' leaders to deliver conventionally armed, nuclear powered attack submarines (SSNs) to the Royal Australian Navy at the earliest possible date while setting the highest nuclear stewardship standards.

---

### **NAVSEA: PEO Unmanned and Small Combatants (PEO USC)**

*Rear Admiral Kevin R. Smith - Program Executive Officer, Unmanned and Small Combatants (PEO USC)*

*Melissa L Kirkendall - Executive Director, PEO, Unmanned and Small Combatants (PEO USC)*

*Dorothy Engelhardt – Director, Unmanned Systems*

Design, development, build, maintenance and modernization of unmanned maritime systems, mine warfare systems and small surface combatants.

PEO (USC) comprises nine major program offices:

#### **PMS 300 Navy and Foreign Military Sales (FMS) Boats and Craft**

Cliff Mitchell – Deputy Program Manager PMS 300

#### **PMS 340: Naval Special Warfare Program**

Patrick Sullivan – Principal Assistant Program Manager Naval Special Warfare Program PMS 340

Rob Iera – Deputy Program Manager Naval Special Warfare Program PMS 340

*Programs*

*MK 11 Seal Delivery Vehicle*

*Visual Augmentation System (VAS)*

### **PMS 406: Unmanned Maritime Systems Program**

Capt. Matthew Lewis - program manager of the Unmanned Maritime Systems  
Joel MacRitchie – Deputy Program Manager Unmanned Maritime Systems Program

#### *Programs*

*Project Overlord Unmanned Surface Vehicles (USVs)*  
*Orca xtra Large Unmanned Undersea Vehicle (XLUUV)*  
*Razorback Medium Unmanned Undersea Vehicle (XLUUV) MUUV*

### **PMS 408: Expeditionary Missions Program Office**

Capt. Jonathan Haase - program manager, Expeditionary Missions  
Michael Alperi – Deputy program manager, Expeditionary Missions

#### *Programs*

*Crew and CUAS*

*Joint Explosive Ordinance Disposal*

*Joint Counter Radio-Controlled Improvised Explosive Device Electronic Warfare (JCREW)*

*Underwater Explosive Ordinance Disposal*

- Viperfish
- Lionfish
- MK 18 UUV
- *Multi-Mission Underwater Breathing Apparatus (MMUBA)*

### **PMS 420: LCS Mission Modules Program**

Capt Matthew Lehmann – Program Manager Mission Modules PMS 420  
George Saroch – Deputy Program Manager Mission Modules PMS 420

#### *Programs*

*AN-AQS20*

*Knifefish*

*Mine Counter Measures (MCM) USV*

*Unmanned Influence Sweep System (UISS)*

*Surface Warfare (SUW) Mission Package*

*Common Mission Package Equipment*

### **PMS 495: Mine Warfare Systems Program**

Lee Agin - Program Manager, Mine Warfare PMS 495  
Gary Jones, Deputy Program Manager, Mine Warfare PMS 495

#### *Programs*

*AMNS Archerfish*

*COBRA*

*ASQ-24*

*Quickstrike*

*Barracuda*

*Hammerhead*

*ALMDS*

### **PMS 501: Littoral Combat Ships Program**

Capt Matthew Lehmann – Program Manager Mission Modules PMS 501  
Jonas Brown - – Deputy Program Manager Mission Modules PMS 501

**PMS 505: LCS Fleet Introduction and Sustainment Program**

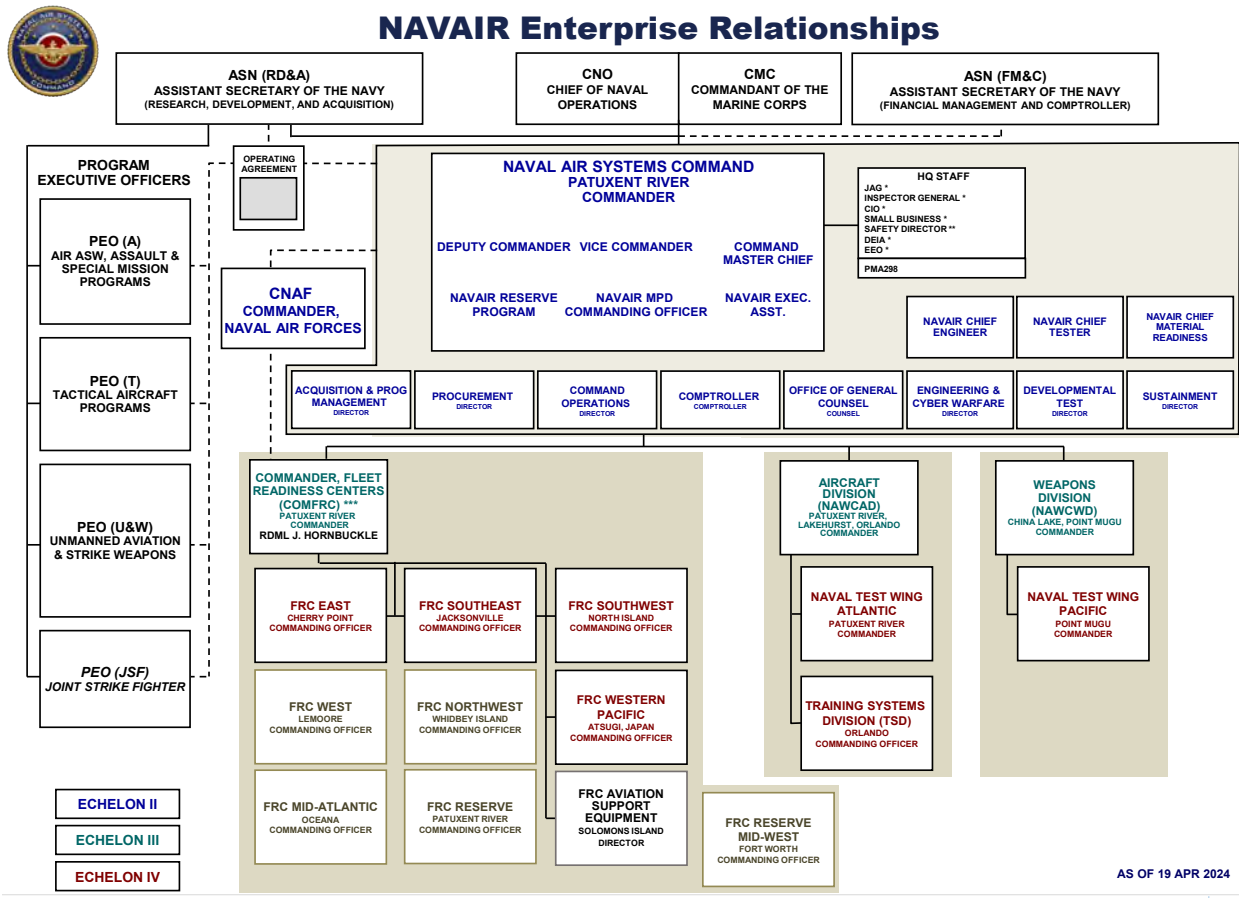

**PMS 515: Frigate Program**

Andy Bosak - deputy program manager Frigate Program PMS 515

**PMS 525: International Unmanned and Small Combatants Program**

Charles Holman – Deputy Program Manager International Unmanned and Small Combatants Program PMS 525

**NAVAIR Naval Air Systems Command NAVAIR**

AS OF 19 APR 2024

NAVAIR \* REPORTS DIRECTLY TO NAVAIR CMDR FOR RESPECTIVE AREA OF RESPONSIBILITY \*\* REPORTS DIRECTLY TO NAVAIR VICE CMDR FOR RESPECTIVE AREA OF RESPONSIBILITY \*\*\* 5 INDUSTRIAL SITES FROM TOTAL OF 10 FRCs REPORT UP THROUGH COMFRC TO NAVAIR CMDR REFERENCES: OPNAV 5450.350 and SNDL 5400.45

There are five Naval Air Systems Program Executive Offices:

## **NAVAIR: PEO Air Anti-Submarine Warfare, Assault & Special Mission (PEO(A))**

*Brigadier General David C. Walsh - Program Executive Officer, Air Anti-Submarine Warfare, Assault & Special Mission (PEO(A))*

Provides fleet capability and capacity, supporting development and sustainment of Navy and Marine Corps helicopters, special mission aircraft and aviation anti-submarine warfare equipment and aircraft.

*PEO(A) has ten major program offices.*

### **Air Anti-Submarine Warfare Systems Program**

Capt. Dennis Lloyd - Program Manager, Air Anti-Submarine Warfare Systems Program

*Programs include:*

#### *Sonobuoys*

Air launched, expendable, sensors designed to relay underwater sounds associated with ships and submarines to remote processors (AN/SSQ-36, AN/SSQ-53, AN/SSQ-62, AN/SSQ-101, and AN/SSQ-125); currently support the MH-60R and P-8A platforms

#### *Multi-Static Active Coherent (MAC)*

Active acoustic search system (SSQ-125) ASW mission set; planned MAC Enhancements (MAC-E).

#### *Airborne ASW Intelligence (AAI)*

Supports Fleet ASW intelligence collection efforts and conducts quick turnaround of threat unit analysis for tactical exploitation; rapid development and insertion of advanced technology into airborne ASW.

#### *Advanced Development*

Identifies and pursues the right Air ASW capability for the highest priority ASW gaps.

### **H-53 Heavy Lift Helicopters Program (PMA-261)**

Colonel Kate Fleeger - Program Manager, H-53 Helicopters Program

NAVAIR's PMA-261 manages the cradle to grave procurement, development, support, fielding and disposal of the entire family of H-53 heavy lift helicopters

#### *CH-53K King Stallion*

The CH-53K transports Marines, heavy equipment and supplies during ship-to-shore movement in support of amphibious assault and subsequent operations ashore

#### *MH-53E Sea Dragon*

The MH-53E has two primary missions; Airborne Mine Countermeasures (AMCM) and Navy heavy lift/Vertical Onboard Delivery (VOD).

#### *Presidential Helicopters Program Office (PMA-274)*

Programs include:

Colonel Alex Ramthun, Program Manager, Presidential Helicopters Program (PMA-274)

#### VH-92A Patriot

#### VH-3D

#### VH-60N

#### *V-22 Joint Program Office (PMA-275)*

Col. Brian Taylor, Program Manager, V-22 Joint Program (PMA-275)

#### *Light/Attack Helicopter Program (PMA-276)*

Jason Barnidge - Capability & Combat Relevance Deputy Light/Attack Helicopter Program (PMA-276)

## **NAVAIR: PEO Tactical Aircraft Programs (PEO(T))**

*Rear Adm. John S. Lemmon - Program Executive Officer Tactical Aircraft Programs (PEO(T))*

Provides full life cycle support of naval aviation aircraft, weapons and systems operated by Sailors and Marines. This support includes research, design, development and systems engineering; acquisition; test and evaluation; repair and modification; and in-service engineering and logistics support.

*PEO(T) has a senior staff and 12 program offices:*

### **F/A-18 and EA-18G Program Office (PMA-265)**

Captain Michael Burks - Program Manager, F/A-18 and EA-18G, Tactical Aircraft Programs (PMA-265)

### **E-2/C-2 Airborne Command and Control Systems Program Office (PMA-231)**

Captain Guillermo I. Carrillo - Program Manager, E-2/C-2 (PMA-231)

### **Airborne Electronic Attack Systems (PMA-234)**

Captain David Rueter - Program Manager, Airborne Electronic Attack Systems (PMA-234)

### **Airborne Strategic Command, Control and Communications Program Office (PMA-271)**

Capt. Adam T. Scott - Program Manager, Airborne Strategic Command, Control and Communications (PMA-271)

Jaimie Grubb - principal deputy program manager, Airborne Strategic Command, Control and Communications Program Office (PMA-271)

Carin Tullos - deputy program manager for the E-XX Take Charge and Move Out (TACAMO) Recapitalization Program, Airborne Strategic Command, Control and Communications Program Office (PMA-271)

#### *The E-6B Mercury*

Deputy Program Manager William McCready, E-6B Mercury PMA 271

is a communications relay and strategic airborne command post aircraft. It provides survivable, reliable, and enduring airborne Nuclear Command, Control, and Communications (NC3) for the president, secretary of defense and U.S. Strategic Command.

Cmdr. Rebecca Anderson

Cmdr. Roger Davis

Cmdr. Jeffrey Desmond

---

## **NAVAIR: PEO Unmanned Aviation and Strike Weapons (PEO(U&W))**

*Rear Adm. Stephen Tedford - PEO, Unmanned Aviation and Strike Weapons (PEO(U&W))*

Designs, builds, delivers and sustains the Navy's unmanned aircraft, weapons, targets, aircrew systems and common support equipment.

*PEO(U&W) has 12 program offices:*

### **Precision Strike Weapons program office (PMA-201)**

Capt. Richard Gensley - program manager, Precision Strike Weapons program office (PMA-201)

### **Direct and Time Sensitive Strike Program (PMA-242)**

Capt. Lindsey Buzzell - Program Manager Direct and Time Sensitive Strike Program PMA-242

- *Advanced Precision Kill Weapon System (APKWS)*
- *AGM-88G Advanced Anti-Radiation Guided Missile (AARGM)*

### **Persistent Maritime Unmanned Aircraft Systems (PMA-262)**

Capt. Josh Guerre, Program Manager, Persistent Maritime Unmanned Aircraft Systems (PMA-262)

- *MQ-4C Triton*

### **Navy and Marine Small Tactical Unmanned Air Systems (PMA-263)**

Gregg Skinner - program manager, Small Tactical Unmanned Air Systems program office (PMA-263)

### **Multi-Mission Tactical Unmanned Aerial Systems (UAS) Program (PMA-266)**

Capt. Dennis Monagle - Program Manager Multi-Mission Tactical Unmanned Aerial Systems (UAS)

### **Unmanned Carrier Aviation (PMA-268)**

Capt. Daniel Fucito - Program Manager, Unmanned Carrier Aviation (PMA-268)

- *MQ-25 Stingray unmanned air system*
- *Unmanned Carrier Aviation Mission Control System (UMCS)*

### **Tomahawk Weapons System (PMA-280)**

Capt. Jon Michael Hersey - Program Manager, Tomahawk Weapons System PMA-280

### **Strike Planning and Execution Systems PMA-281**

Capt. Jerick Black - Program Manager, Strike Planning and Execution Systems PMA-281

- [\*CCS - Unmanned System Common Control System \(CCS\)\*](#)
- [\*Air Wing Ship Integration \(AWSI\)\*](#)
- [\*Strike Planning and Execution Systems\*](#)

---

## **NAVAIR: PEO F-35 Lightning II Joint Program Office (PEO F-35)**

*Lt. Gen. Michael J. Schmidt - Program Executive Officer, F-35 Lightning II Joint Program Office*

The F-35 Lightning II Joint Program Office (JPO) leads the life-cycle program management of the **F-35A, F-35B, and F-35C**

---

## **NAVAIR: PEO Common Systems**

### **Navy Communications and GPS Navigation Program (PMWA-170)**

Capt. Kris De Soto - Program Manager, Navy Communications and GPS Navigation Program PMWA-170

### **Naval Aircrew Systems Program Office (PMA-202)**

Capt. Carey Castelein – program manager Aircrew Systems PMA 202

### **Naval Aviation Training Systems and Ranges (PMA-205)**

Capt. Kevin T. McGee - Program Manager, Naval Aviation Training Systems and Ranges Program PMA-205

### **Common Aviation Support Equipment Program Office (PMA-260)**

Capt. Matt Wilcox - Program Manager, Aviation Common Support Equipment Program Office PMA-260

### **Adversary and Specialized Aircraft Program Office PMA-226**

Capt. Gregory Sutton - Program Manager, Adversary and Specialized Aircraft Program Office PMA-226

[Air Combat Electronics Program Office \(PMA-209\)](#)

Capt. Jarrod Hair – Program Manager, Air Combat Electronics Program Office (PMA-209)

---

## [NAVWAR Naval Information Warfare Systems Command](#)

*Rear Adm. Seiko Okano – Commander NAVWAR*

*John R. Pope – Executive Director for Naval Information Warfare Systems Command NAVWAR*

*Troyce (Troy) R. Gunter - Director of Contracts NAVWAR*

### [NAVWAR: PEO Command, Control, Communications, Computers and Intelligence \(PEO C4I\)](#)

*Bill Luebke, Ph.D. - Program Executive Officer, Command, Control, Communications, Computers and Intelligence*

*Capt Khary Hembree-Bey - Deputy Military PEO (PEO C4I)*

Capt. Sam Hanaki – Strategic Planning Command, Control, Communications, Computers and Intelligence (PEO C4I)

Genie Chaiken – Director of Strategy (PEO C4I)

Jara Tripiano – acting Executive Director and the Chief Engineer for Naval Information Warfare Center (NIWC) Pacific( PEO C4I)

Dr. Bob Parker - Technical director (PEO C4I)

Mr. James Najera - Cloud Lead and Cloud Information (PEO C4I)

Mr. Robert Weaver - Mission Engineering Department Head (PEO C4I)

Mr. Jonas Lazo - Digital Engineering Architect (PEO C4I)

Navy’s first line to acquire the right communication and technology tools to deliver affordable, integrated and interoperable information warfare capabilities to the fleet.

126 Total Programs

- ACAT I: 7
- ACAT II: 10
- ACAT III & Below: 109

*\* ACAT I: (2) Active, (5) Sustainment*

*Manages 10 program offices.*

### **Project Overmatch**

Navy’s contribution to CJADC2 -Combined Joint All-Domain Command and Control

Remil Capili – program manager Project Overmatch

Phong Le – Overmatch Principal product manger

David Flowers - Overmatch International Lead

Eric Donley - Overmatch Assistant Program Manager - Contracts / Foreign Disclosure Representative

### [Multifunctional Information Distribution System Program Office \(PMA/PMW-101\)](#)

Capt Jason Weaver - Program Manager Multifunctional Information Distribution System Program Office (PMA/PMW-101)

Rick Mountain – Principal Deputy Program Manager Multifunctional Information Distribution System Program Office (PMA/PMW-101)

*Programs:*

- *MIDS International Program Office (IPO)*
- *MIDS Joint Tactical Radio System (JTRS)*
- *Advanced Tactical Data Links*
- *Link 16 Waveform programs*

**Battlespace Awareness & Information Operations (PMW 120)**

Captain [Patrick Pemberton](#) - Program Manager for Battlespace Awareness & Information Operations (PMW 120)

Sal Ledsema – Deputy PM for Battlespace Awareness & Information Operations (PMW 120)  
Delivers an integrated portfolio of battlespace awareness and Information Warfare capabilities that enable the Fleet to assess the battlespace and make better decisions faster

*Programs*

- *Ship's Signal Exploitation Equipment Family of Systems (SSEE FoS)*
- *Horizon*
- *Distributed Common Ground System-Navy Family of Systems (DCGS-N FoS)*
- *Naval Integrated Tactical Environmental System Next Generation (NITES – Next)*
- *Littoral Battlespace Sensing - Unmanned Undersea Vehicles (LBS -UUV FoS)*
- *Hazardous Weather Detection and Display Capability (HWDDC)*
- *Electromagnetic Maneuver Warfare Integrated Fires (EMWIF)*

**Cybersecurity Program Office (PMW 130)**

Jeff Sanders – Program Manager Cybersecurity (PMW 130)

Michael Dee Davis – Deputy Program Manager Cybersecurity (PMW 130)

Is the Navy's cybersecurity acquisition agent delivering cybersecurity products, capabilities, and services that protect and defend against cyber threats.

*Programs*

- *Crypto and Key Management*  
Cryptography (Data and Voice), Key Management, Public Key Infrastructure (PKI)
- *Network Security*  
Computer Network Defense (CND), SHARKCAGE, Endpoint Security, Platform Boundary Defense
- *Cyber Analytics*  
Navy's CDS: Radiant Mercury, Cyber Situational Awareness (NCSA, NCCD, RAVEN), Vulnerability & Remediation Asset Manager (VRAM)

**Naval Command and Control Systems (PMW 150)**

Nicholas "Nic" Bergeron – Program Manager Command and Control Systems (PMW 150)

Provide Command and Control and Tactical Communications solutions to the warfighter

*Programs*

- *Maritime Tactical Command and Control (MTC2)*  
Global Command & Control System-Maritime (GGCS-M) - (ACAT IAC), Maritime Tactical Command & Control (MTC2), Navy Air Operations Command and Control (NAOC2), Consolidated IAMD Planning Program (CIPP)
- *Tactical Command and Control (MTC2)*

Link 16- (ACAT II), Command and Control Processor, Link Monitoring and Management Tool (LMMT) - (ACAT III)

- *Command and Control Processor (C2P) - (ACAT II)*
- *Link Monitoring and Management*

### **Tactical Networks (PMW 160)**

Captain Nicole Nigro - Program Manager for Tactical Networks (PMW 160)

Jeff Myers - Deputy Program Manager for Tactical Networks (PMW 160)

Is the Navy's program office for tactical networks, delivering integrated wide area, local networking and computing and data systems afloat.

- *Consolidated Afloat Networks and Enterprise Services (CANES) (ACATIAC)*
- *Automated Digital Network System (ADNS) (ACAT II)*
- *Legacy Network Systems (LNS) (ACAT II/III)*
- *Application Integration (AI)*
- *Agile Core Services (ACS)*
- *Communications-as-a-Service (CaaS)*

### **Communications & GPS Navigation (PMW/A 170)**

Capt. Kris De Soto – Program Manager Communications & GPS Navigation (PMW/A 170)

Lauralee von Husen – Deputy Program Manager Communications & GPS Navigation (PMW/A 170)

Provider of advanced, resilient, and adaptive communication and assured position, navigation, and timing capabilities.

#### *Tactical Communications 1*

Shannon Dillon - Principal APM Tactical Communications 1, (PMW/A 170)

BFTN, NTCDL, CDLS, CDLS-TR, BFEM, BRSE, PRP, CSEL, HF Legacy, HFRG, JCSE Mod

#### *Tactical Communications 2*

Gerardo Roa - Principal APM Tactical Communications 2, (PMW/A 170)

DMR, ATCS, DWTS, HF SAR, SINGARS, EPLRS-DR, EMUT, TVS, SA-2112, Mini-DAMA, 5/25 kHz, MUOS on DMR

#### *Satellite Communications*

?? - Principal APM Satellite Communications, (PMW/A 170)

NMT, ATIP, GBS, ESRP Afloat/Ashore, CBSP, NSLC-A, SMT, Big Sky, NESP, TV-DTS, INMARSAT, IRIDIUM, SHF AN/WSC-6(V), TIP, AC2 Modem, NMT Modem Adaptive Coding

#### *Positioning, Navigation, and Timing*

Jamal "JR" Rogers - Principal APM Positioning, Navigation, (PMW/A 170)

GPNTS, Air/Sea NAVWAR, GPS Modernization, Air Navigation, NAVSSI, DAGR, AN/WRN-6(V), NoGAPSS, M-Codem MAGNA

### **International C4I Integration (PMW 740)**

Rosa Puig – Program Manager International C4I Integration (PMW 740)

Alan Philpott – deputy International C4I Integration (PMW 740)

Focal point for security cooperation efforts we acquire, integrate, test, deliver, and sustain tailored C4I solutions and services to foreign partners

### **Carrier Air Integration (PMW 750)**

CAPT Sam Hallock - Program Manager Carrier Air Integration (PMW 750)

Anthony Vanaria – Deputy Program Manager Carrier Air Integration (PMW 750)

delivers integrated and interoperable C4I capabilities to aircraft carriers, amphibious assault ships, command ships, and aircraft. Coordinates C4I system installation for new construction and fleet modernization and ensures Naval Aviation platforms are interoperable.

- *Force-level New Construction*
- *Force-level Platform Integration*
- *TacMobile*
- *Air Integration*

### **Ship Integration Program Office (PMW 760)**

Raphael Castillejo Program Manager at PEO C4I (PMW760)

Eric Andalis - Deputy Program Manager at PEO C4I (PMW760)

Plans for the design, acquisition, test, integration, and installation of C4I capabilities

### **Undersea Communications and Integration (PMW 770)**

CAPT Dave Kuhn - program manager Undersea Communications and Integration (PMW 770)

John Wrinn – deputy program manager Undersea Communications and Integration (PMW 770)

#### *Programs*

- *Common Submarine Radio Room (CSRR)*
- *Multi-Function Mast (OE-538)*
- *Submarine High Data Rate (SubHDR)*
- *Low Band Universal Communications System (LBUCS)*
- *High Power Transmission Equipment (HPTE)*
- *Navy Modernized Hybrid Solution (NMHS)*
- *Submarine Antenna Modifications and Sustainment (SAMS)*
- *Take-Charge and Move-Out (TACAMO) Ground Communications*
- *BRR-6/BST-1 (SCB) Towed Buoy Antenna*
- *Submarine Operating Authority (SUBOPAETH)*

### **Shore & Expeditionary Integration (PMW 790)**

Bill Traganza - program manager Shore & Expeditionary Integration (PMW 790)

Brian Miller - deputy program manager Shore & Expeditionary Integration (PMW 790)

Delivers resilient, adaptable, interoperable and affordable shore and expeditionary C4I capability, enabling all domain mission success.

#### *Programs*

- *Shore Tactical Assured Command and Control (STACC)*
- *Global Command and Control System – Joint (GCCS-J) (Project) GCCS-J is a Defense Information*
- *Maritime Operations Center (MOC) (Project)*
- *United States Naval Observatory (USNO) Precise Time and Astrometry (PTA) Network*
- *CANES MOC Variant (CMV) Consolidated Afloat Networks and Enterprise Services (CANES)*
- *Navy Expeditionary C4I (Project)*
- *Deployable Joint Command and Control (DJC2) (ACAT IAC)*
- *IW Shore Platform Modernization (Project)*
- *Telephony (Project) Shore Telephony*
- *Joint Military Satellite Communications (MILSATCOM)*
- *Navy DSO (Dev/Sec/Ops)*
- *Tactical Shore Platform*
- *C4I Arsenal C4I Arsenal*

---

## **NAVWAR: PEO Digital and Enterprise Services (PEO Digital)**

*Louis A. Koplon - Program Executive Officer, Digital and Enterprise Services (PEO Digital)*

*Bradley Punch - Executive Director, Digital and Enterprise Services (PEO Digital)*

*Justin Finelli- Acting CTO/Technical Director, Digital and Enterprise Services (PEO Digital)*

Delivers a digital enterprise-wide IT services to the Navy

## **Platform Application Services (PAS)**

John Mithum - Portfolio Manager Platform Application Services (PAS)

W. Kermit McKelvy - Deputy Portfolio Manager Platform Application Services (PAS)

*Neptune Cloud Management Office (CMO)*

- Navy Enterprise Cloud Management (NECM)
- Marine Corps Enterprise Cloud (MCEC)
- Cloud Hosting Services -

*DevSecOps Offering*

- Naval Identity Services (NIS)

## **End User Services**

Rebecca Ostrom - Portfolio Manager End User Services

Kyle Baker - Deputy Portfolio Manager End User Services

*Programs include:*

- *Physical Devices (EUHW Services)*
- *Desktop Virtualization Services*
- *Image / Application Service*
- *Mobility Services*
- *Print Services*

## **Digital Workplace Services**

Rajan Sharma - Portfolio Manager Digital Workplace Services

Dave Thompson - Deputy Portfolio Manager Digital Workplace Services

Designs cloud-based solutions for the Navy Enterprise. Digital Workplace Services includes two service families – Workplace Automation and Data Analytics and Visualization.

*Programs include:*

*Flank Speed / Microsoft 365 (M365)*

- Navy's cloud network environment, with the USN and USMC having their own tenant.

*SharePoint Online (SPO)*

- Cloud-based portal services

*Unified Capabilities*

- Classified/unclassified voice, video, and/or data delivered across a secure infrastructure.

*Records Management*

- Cloud based electronic records management with Microsoft Purview retention capabilities.

*Power Platform*

- Low-code, no code tools to create content to display in a browser, mobile device, or tablet.

*Teams Telephony*

- Cloud-based telephony, audio conferencing and direct commercial calling via Teams application.

*Service Now as a Service – Enterprise (SNaas-E)*

- Tools to automate cloud apps with little/no coding using Out-of-the-Box APIs

*Azure Financial Operations (FinOps)*

- budgeting, acquisition, accounting, financial forecasting, and analysis services.

**Infrastructure Services (IS)**

Richard Stich - Portfolio Manager Infrastructure Services (IS)

Adam Koros – Deputy - Portfolio Manager Infrastructure Services (IS)

Provides generic enterprise networking (EN) and transport and communication (T&C) services

*Programs include:*

*Compute and Storage (C&S)*

- enterprise computational capabilities and enterprise data storage space; Data Center (DC)

*DC Services*

- Networking and Platform Services to Navy-Marine Corps Intranet (NMCI)

*Tactical Edge (TE)*

- Provides connectivity to shipboard and deployed Naval Fleet Forces and Marines

*Enabling Support (ES)*

- Tech support; technical evaluation services; MILCON planning; plant connectivity.

*Wide Area Network/Base Area Network/Local Area Network (WAN/BAN/LAN)*

- Provides Network Communication Infrastructure and Software Defined Wired and Wireless Networking services

*Circuits*

- Provisions the connectivity to enable Enterprise Transport and Communications Services.

*Communications Security (COMSEC)*

- Provides classified networks and Tactical Local Area Network Encryptor capabilities

**Cybersecurity and Operational Services (CaOS)**

Daniel Loe - Portfolio Manager Cybersecurity and Operational Services (CaOS)

## SOF Acquisition, Technology and Logistics (SOF-ATL)

*James H. Smith - Director Acquisition, Technology and Logistics (SOF-ATL)*

*William J. Innes - Deputy Director, Acquisition, Technology and Logistics (SOF-ATL)*

---

## SOF: PEO Tactical Information Systems (PEO-TIS)

responsible for SOF Integrated sensor systems; Sensitive site exploitation; Remote Capabilities; emplacement, recovery, and tactical communication systems and intelligence and tactical communication systems for Special Operations Forces (SOF).

*Nick Ferguson – Program Manager Tactical Information Systems (PEO-TIS)*

---

## SOF: PEO Directorate of Enterprise Information Systems (DIR-EIS)

integrates new/emerging technologies. develops, implements, and manages commercial IT contracts

DIR-EIS portfolio has three capability areas:

**Enterprise Systems**

**Transport Systems**

**SOF Information Technology Integration Services**

---

## SOF: PEO Fixed Wing (PEO-FW)

develops and delivers Special Operations (SO)-peculiar manned and unmanned fixed-wing solutions to infiltrate, exfiltrate, and resupply in hostile denied environments:

Programs:

- *AC-130J Ghost rider*
  - *OA-1K Skyraider II.*
  - *Airborne ISR systems, includes the U-28A aircraft, JAVAMAN, MC-12 Liberty, MQ-1C, and MQ-9.*
- 

## SOF: PEO Maritime (PEO-M)

surface fleet consists of the Combatant Craft Heavy, Combatant Craft Medium, Combatant Craft Assault, Special Operations Craft – Riverine, and Small Unmanned Surface Vehicles. The undersea fleet consists of the Dry Deck Shelter, Dry Combat Submersible, SEAL Delivery Vehicle, SOF Combat Diving, and Small Unmanned Underwater Vehicles.

---

## **SOF: PEO Rotary Wing (PEO-RW)**

advanced rotary wing aircraft: A/MH-6, MH-60, MH-47 aircraft, mission equipment packages providing communications, navigation and aircraft protection, and training systems from combat flight simulators.

---

## **SOF: PEO Digital Applications (PEO-SDA)**

Special Operations-specific software and data for SOF

*Col. Rhea Pritchett, Program Executive Officer, PEO SOF Digital Applications (SDA)*

One-stop shop for SOF software intensive digital applications

Three product-line portfolios and one government software factory:

### **Mission Support Systems:**

*Intelligence and Operations analytics systems that provide a unified SOF Operating Picture*

### **SOF Digital Ecosystem**

*Data Analytics Services and Tools*

### **Special Operations Mission Planning and Execution**

*Mission planning and execution software tools*

### **Tactical Assault Kit**

*Suite of map-based, situational awareness software applications.*

---

## **SOF: PEO Services (PEO Services)**

acquisition of Manpower Augmentation and Professional Services

---

## **SOF: PEO Special Operations Forces Support Activity (PEO-SOFS)**

*Manfred little Deputy PEO - Special Operations Forces Support Activity (PEO-SOFS)*

contracting, financial management, and operations oversight for service contract, which provides contractor logistics support services to SOF

### **Program Management Office for Expeditionary Support (PM-ES)**

delivers logistics support, training, and future logistics capability development for SOF. Current programs include Joint Operational Stocks (JOS) and Foreign / Nonstandard Weapons Material Munitions (F/NWMMP).

---

## **SOF: PEO Special Operations Forces Warrior (PEO-SW)**

*Robert "Ramsey" Oliver – Program Executive Officer Warrior*

Develops and fields a \$1.5B annual portfolio of capabilities including:

*Programs*

- Ground Mobility
- Operator Target Acquisition & Visual Augmentation Systems
- Operator Weapon Systems & Accessories
- Operator Ammunition/Demolition/Loitering Munitions
- Operator Equipment, Protection, and Survival
- Operator First Aid Kits, Medic Kits, and Casualty Evacuation

Special Operations Forces (SOF) Warrior Program Management (PM) Offices:

- **Special Programs**
  - **Maritime Special Programs**
  - **SOF Lethality**

### *Programs*

- *Mobile User Objective System Baseline (MUOS)*
- *Mobile User Objective System Ground Sustainment*
- *Mobile User Objective System Service Life Extension Space*
- *Mobile User Objective System Service Life Extension Ground Modernization*

## **Position, Navigation and Timing Delta IMD**

Col Andrew S. Menschner - Commander Position, Navigation and Timing Delta IMD

### *Programs*

- *GPS III*
- *OCX*
- *OCX Transition*
- *C2 Modifications*
- *GPS Ground Support*

## **Position, Navigation and Timing Delta SYD**

Col Matthew Spencer - Commander Position, Navigation and Timing Delta SYD

### *Programs*

- *Military GPS User Equipment Increments 1 and 2*
- *Global Positioning System III F*
- *Foreign Military Sales*

---

## **Space Force: PEO Space Sensing (SN)**

Col. Robert Davis - Program Executive Officer

M. Doan - Deputy Program Executive Officer

COL D. Bannach - Deputy Director

responsible for delivering persistent, resilient all-domain awareness, missile warning, tracking, and defense (MW/MT/MD), space-based environmental monitoring (SBEM)

## **Resilient Missile Warning / Missile Tracking / Missile Defense (MW/MT/MD)**

Col J. Seal – senior material leader Resilient Missile Warning / Missile Tracking / Missile Defense

### *Programs*

- *Medium Earth Orbit System Engineering, test and Operations Integration*
- *Resilient Missile Warning, Missile Tracking Medium Earth Orbit*
- *Future Operationally Resilient Ground Evolution (FORGE)*

## **Environmental and Tactical Surveillance**

Col Dan Visosky - senior material leader, Environmental and Tactical Surveillance

### *Programs*

- *Electro-Optical Infrared Weather System (EWS) / Geostationary (EWS-G)*
- *Weather System Follow-On Microwave (WSF-M)*
- *Commercial & Persistent Tactical Surveillance*

## **Strategic Missile Warning Space**

Col L. Brown, Jr. - senior material leader, Strategic Missile Warning Space

### *Programs*

- *Next Generation Overhead Persistent Infrared (OPIR) Integration*
- *Next Generation OPIR Geosynchronous / Next Generation Interim Ops*
- *Next Generation OPIR Polar*

## **Strategic Missile Warning Ground**

Col S. Medeiros- senior material leader, Strategic Missile Warning Ground

### *Programs*

- *Next Generation Overhead Persistent Infrared (OPIR) Integration*
- *Future Operationally Resilient Ground Evolution*
- *Relay Ground Stations*
- *Data Exploitation Tools*
- *Applications Processing Lab & OPIR Battlespace Awareness Center / Space Modernization Initiative*
- *Survivable / Endurable Systems*
- *United States Nuclear Detonation Detection System*

## **Product Support Delta**

Anita McCorvey -director, Product Support Delta

### *Programs*

- *Spaced Based Infrared Systems (Ground/Satellites)*
- *United States Nuclear Detonation Detection System*
- *Joint Tactical Ground Systems*
- *Mobile Ground Systems*
- *Electro-optical Infrared Weather System*
- *Defense Meteorological Satellite Program*

---

## **Space Force: PEO Space Domain Awareness & Combat Power**

*Colonel Bryon McClain - Program Executive Officer, Space Domain Awareness & Combat Power*

*Col S. Klempner - Deputy Program Executive Officer, Space Domain Awareness & Combat Power*

*T. Janiec (acting) -Deputy Director, Space Domain Awareness & Combat Power*

- 60 space and ground-based programs valued at more than \$9.4B
- 30+ operational systems, spanning five continents

## **Rapid Reaction Branch**

Lt. Col R Owen - Rapid Reaction Branch

## **Innovation and Prototyping Directorate**

Col. Joseph J. Roth – Director Innovation and Prototyping Directorate and Commander, Space Systems Center, Detachment 1

### *Programs*

- *Prototype Operations*
- *Enterprise Enabler Development*
- *DoD Space Test Program*
- *Innovation Development*
- *Prototype Ground Development & Sustainment*

## **Electromagnetic Warfare Systems Delta**

Jordan Riedel – Director Electromagnetic Warfare Systems Delta

### *Programs*

- *Combat Systems*
- *Next – Gen Programs*
- *Cyber Ops*

## **Space Warfighting**

Col Eric Stockham – Director Space Warfighting

### *Programs*

- *Future Programs*
- *Advanced Programs*
- *Advanced Capabilities*
- *Space Safari*

## **Advanced MILSATCOM**

Lt. Col Gary Goff (Acting) – Program Manager Advanced MILSATCOM

### *Programs*

- *Rapid Execution & Development*
- *Advanced Global Capabilities*
- *Rapid Acquisition*
- *Comms Modernization*
- *Enterprise Integration*

## **Space Domain Awareness Acquisition Delta**

F.R. Schnell - Program Manager Space Domain Awareness Acquisition Delta

### *Programs*

- *Ground Radar*
- *Optical & Passive Radio Frequency*
- *Space Electro – Optical Integration*
- *SDA Analytics & Artificial Intelligence*

## **Strategic Warning & Surveillance Systems**

Mark LaForce (Acting) - Program Manager Strategic Warning & Surveillance Systems

### *Programs*

- *National Cheyenne Mountain Complex*
- *Upgraded Early Warning Radars*

- *COBRA DANE*
  - *Shared Early Warning*
  - *Integrated Tactical Warning and Attack Assessment Integration*
  - *Perimeter Acquisition Radar Attack Characterization System*
  - *Legacy Space*
- 

## **Space Force: PEO Operational Test and Training Infrastructure (OTTI)**

Col. Corey Klopstein - Program Executive Officer

### **Engineering**

K. Molder - Program Manager Engineering, Operational Test and training

*Programs*

- *Systems Engineering and Integration*
- *Testing*
- *Safety*
- *Configuration Management*
- *Architecting*

### **Test and Training**

Vacant - Program Manager Test and training

*Programs*

- *Physical / Live Test and Training*
  - *Digital / Synthetic Test and Training*
  - *Test and Training Mission Infrastructure*
  - *Test and Training Readiness, sustainment, logistics, and product support*
- 

## **Space Force: PEO Space Systems Integration Office**

Dr. Claire Leon - Program Executive Officer

## **Missile Defense Agency MDA**

*Lieutenant General Heath Collins - Director, Missile Defense Agency*

---

**Aegis Ashore**

**Ground-Based Midcourse Defense**

**Sea Based Weapon Systems – Aegis BMD**

**Terminal High Altitude Area Defense**

**Command Control Battle Management Communications (C2BMC)**
